To gain hands-on experience in software development and strengthen my fundamental knowledge through real-world projects. As a motivated intern, I am eager to learn from experienced developers, improve my problem-solving skills, and gradually grow into a professional **Software Engineer** who can contribute meaningful value to a team.

EDUCATION

Bachelor's degree - Information Technology

Aug 2023 - Dec 2026

University of Transport Ho Chi Minh City

GPA: 3.2/4.0

Relevant Coursework: Artificial Intelligence and Applications (9.4/10), Software Engineering (9.0/10), Network Programming (8.5/10), Discrete Mathematics (8.3/10)

Intermediate Degree - IT (Software Application)

Aug 2020 - Jul 2022

Ho Chi Minh Vocational College

GPA: 8.7/10

Top Graduate and Class President.

PROJECTS

Photo Palette [↗](#)

Feb 2026 - Present

Role: Frontend Developer

Team Size: 1

- Built a Korean-style photobooth web app allowing users to capture, customize, and download photos in-browser
- Implemented real-time camera capture and image processing using **HTML5 Canvas & MediaStream APIs**
- Designed modular architecture with React components, custom hooks, and state management
- Developed interactive UI with smooth UX using **React, Vite, TypeScript, Tailwind CSS**
- Features include layout selection, countdown capture, frame customization, and instant download

NeoShop E-commerce [↗](#)

Jan 2026 - Mar 2026

Role: Fullstack Developer

Team Size: 1

- Developed full-stack e-commerce system for digital products using **ReactJS + Spring Boot**
- Implemented JWT authentication, Google OAuth2, and role-based access control
- Built real-time chat with **WebSocket (STOMP, SockJS)** and secure payment integration (VNPay, MoMo)
- Designed product key auto-delivery system and dynamic cart with Context API + LocalStorage
- Deployed with **Docker Compose**, integrated CI/CD and REST API documentation (Swagger)

EV Warranty Management System [↗](#)

Dec 2025 - Feb 2026

Role: Backend Developer

Team Size: 5

- Developed a centralized warranty system connecting manufacturers and service centers
- Implemented AI-based component failure prediction from vehicle data
- Built end-to-end warranty claim workflow (create, review, approve/reject)
- Designed role-based access control and real-time monitoring dashboard
- Tech stack: **Java Spring Boot, Thymeleaf, PostgreSQL, Docker, Maven**

Game Caro (Desktop) [↗](#)

Dec 2025 - Feb 2026

Role: Windows Forms Developer

Team Size: 2

- Developed a real-time Caro game using **C# .NET Windows Forms & Socket (TCP)**
- Implemented client-server architecture for LAN gameplay with synchronized moves and chat
- Designed game logic with board management, win detection, and undo/redo features
- Built interactive UI with **SunnyUI**, supporting avatar, timer, and player customization

FAMER-KUN Store (Graduation Project) [↗](#)

May 2022 - Jul 2022

Role: Web Designer / Developer

Team Size: 1

- Built an e-commerce website on the **Wix** platform.
- Designed the entire product catalog, shopping cart, and checkout flow.

SKILLS

Languages:: Java, C#, Python, JavaScript, TypeScript, SQL, HTML5, CSS3.

Frameworks/Libraries:: React, Spring Boot, .NET/Windows Forms, Tailwind CSS

Databases & DevOps:: PostgreSQL, MySQL, SQL Server, Docker, Git, Vercel, Render, Railway

Soft Skills:: Leadership (Class President), Problem-Solving, Teamwork, Analytical Thinking

CERTIFICATIONS

Gemini Certified University Student (Credential ID: 175119715) [↗](#) by Google for Education

Feb 2026

LANGUAGES

Vietnamese (Native proficiency) • **English** (Professional working proficiency)
